GRAROOND Evacuation Aspects

Reference: ROMA 33642

Action Requested: Preparation of Requested Report

Admittedly, in all stay behind programs it is probable that certain personnel (usually important spotters or principal organizers) may have to be evacuated in time of war largely to deny them to the enemy. Reference report brings up the problems of evacuation of GRAVIMETRY/l. As this is a special aspect of stay behind planning and for purposes of reviewing the evacuation portion of GRAROOND, it is requested GRARE prepare a summary report for Vienna Station and Headquarters covering the following points:

- a. Indicate which agents have been chosen for evacuation and, very briefly summarize why these were chosen.
- b. What planning steps have been taken up to the present time for evacuations.
- c. Which agents have been informed they will probably be evacuated and how much has each agent been told.
